

# What are the latest tools available to assist cocoa farmers and their governments?

## ACP-EU Commodities Programme

- ❑ Cocoa smallholders (at least 30% women) have increased their agricultural income by 30%
- ❑ Reduced dependency on cocoa income to 70% through diversification
- ❑ Capacity has been built through FBS and CBS

# Sustainable Management

Coordination of national cocoa production policies mindful of the impact of these policies on prices:

- Policy coherence, synergy building, - *replace competition by cooperation* “Co-opetition”
- mainstreaming policies in National development plans

# Sustainable Management

Industry's Cocoa Initiatives and Sustainable Programmes should include Farm Diversification Packages:

- Facilitate access to finance, capacity building in terms of GAPs, explore other markets, strong cooperatives

# Sustainable Management

Cocoa Producers and Industry should engage in serious discussion on the requirements of supply and demand:

- PPP Consultative Platforms. Farmers should be Partner.

# Conclusion

**Coordinated approach among all  
stakeholders  
should be the Norm!**

**Thank you!**
