Background

• Cocoa sector in Ghana
  – Cocoa is the cornerstone of Ghana’s economy
  – Major export commodity (30% of Ghana’s total export earnings)
  – More than 9% of agricultural Gross Domestic Product (GDP)
  – Over 800,000 farmers depend to a great extent on cocoa for their income

• Ghana Cocoa Board has played a crucial role in positioning Ghana within the global market and ensuring the quality of its cocoa exports

• Besides this public support, there has been a strong commitment by the private sector to improve the sustainability of the industry.
Background

• Despite the progress achieved in the last years, key issues such as productivity, pests and diseases, child labour and deforestation need to be addressed.

• There is the need for an enhanced institutional and stakeholders’ coordination and focused dialogue among all players to agree on a common strategy to tackle these and many other issues.
